

DROPBOX + SHAREVAULT

The ShareVault Connector for Dropbox seamlessly blends the user-friendliness of Dropbox with ShareVault's intuitive industry-leading document control for secure external file sharing.

WHY NOT JUST USE DROPBOX FOR SHARING SENSITIVE DOCUMENTS

When considering the sharing of sensitive documents, virtual data rooms like ShareVault offer distinct advantages over general file-sharing services like Dropbox. The main advantages center on enhanced security, regulatory compliance, and specialized support.

01

ENHANCED SECURITY FEATURES

- ShareVault virtual data room offers advanced encryption and dynamic watermarks for document protection.
- Our VDR provides granular access control and stronger authentication methods to ensure secure access.

02

AUDIT TRAILS & COMPLIANCE

- You'll have access to comprehensive audit trails to monitor all user activities, supporting regulatory compliance.
- Specifically designed to meet the rigorous standards required in sensitive transactions.

03

CUSTOMIZATION & CUSTOMER SUPPORT

- Our platform offers tailored solutions that cater to the specific needs of complex transactions and sensitive exchanges.
- Includes dedicated support and consultation to ensure optimal setup and use, essential for handling critical information.

EFFORTLESS INTEGRATION

ShareVault Connectors are designed to harmoniously **integrate** with other cloud-based services.

Administrators have the flexibility to **add multiple connectors**, where external users can securely access content from all your cloud-based services through a single web application.

ShareVault stands alone as the premier virtual data room provider offering a dedicated connector for Dropbox.

Experience it for yourself with a **FREE TRIAL**

Regardless of your industry, ShareVault's virtual data room has you covered when it comes to organization, security and ease of use to help you get your deal done fast and effectively.

ANALYTICS AND REPORTING

Get comprehensive analytics and reporting with a detailed audit trail, ensuring transparency and compliance with a clear record of user activities.

GRANULAR ACCESS CONTROLS

Have precise control over your data access ensuring confidential information is only accessible to authorized individuals.

DYNAMIC WATERMARKING

Add an extra layer of security with dynamic watermarking, applying personalized watermarks to documents in real-time to prevent unauthorized sharing or reproduction.

INTEGRATIONS/CONNECTORS

Streamline your workflow processes and enhance user efficiency by connecting our virtual data room with essential tools and third-party applications.

ENTRY PAGES WITH CLICK WRAP COMPLIANCE

Ensure secure onboarding with entry pages and clickwrap compliance, facilitating user agreement to terms and conditions for legal adherence and security.

HIGH-PERFORMANCE DOCUMENT VIEWING

Enjoy a high-performance viewing experience, ensuring efficient access and review of documents for optimal user engagement.

BRANDING

Tailor the virtual data room interface to reflect your corporate identity, enhancing the user experience while allowing brand consistency.

DIGITAL RIGHTS MANAGEMENT

Specify permissions, track activities, and enforce security policies for protecting intellectual property and sensitive information.
